

Friend Public School

Student Computer/Network/Internet User Agreement and Parent Permission Form

Introduction

We are pleased to offer students of the Friend Public School access to the district computer network resources, electronic mail and the Internet. To use these resources, all students must sign and return this form and must obtain parental permission. Parents, please read and complete this document carefully, review its contents with your son/daughter, and sign and initial where appropriate. Any questions or concerns about this permission form or any aspect of the computer network should be referred to the superintendent.

General Computer / Network Use

The network is provided for students to conduct research, complete assignments, and save assignments. Access to network services is given to students who agree to act in a considerate and responsible manner. Students are responsible for good behavior on school computer networks just as they are in a classroom or a school hallway. Access is a privilege - not a right. As such, general school rules for behavior and communications apply and users must comply with district standards and honor the agreements they have signed (see over). Beyond the clarification of such standards, the district is not responsible for restricting, monitoring or controlling the communications of individuals utilizing the network.

Network storage areas may be treated like school lockers. Network administrators may review files and communications to maintain system integrity and insure that users are using the system responsibly. Users should not expect that files stored on district servers will always be private.

Internet / World Wide Web / E-mail Access

Access to the Internet will enable students to use thousands of libraries and databases. Within reason, freedom of speech and access to information will be honored. Families should be warned that some material accessible via the Internet might contain items that are illegal, defamatory, inaccurate or potentially offensive to some people. While our intent is to make Internet access available to further educational goals and objectives, students may find ways to access other materials as well. Filtering software is in use, but no filtering system is capable of blocking 100% of the inappropriate material available on the Internet. We believe that the benefits to students from access to the Internet, in the form of information resources and opportunities for collaboration, exceed any disadvantages. Ultimately, parents and guardians of minors are responsible for setting and conveying the standards that their children should follow when using media and information sources. To that end, Friend Public School supports and respects each family's right to decide whether or not to apply for access (see over).

Publishing to the World Wide Web

Parents, your daughter or son's work may be considered for publication on the World Wide Web, specifically on his/her school's web site. Such publishing requires parent/guardian permission (see over). The work will appear with a copyright notice prohibiting the copying of such work without express written permission. In the event anyone requests such permission, those requests will be forwarded to the student's parent/guardian.

Unidentified photos of students may be published on school websites, illustrating student projects and achievements. **If you do not want your child's photo to be published on the website**, please indicate that on enrollment forms.
